RE: Region 28 Request for Inter-regional Concurrence for our Window #7 Amendment

PhM Dear Mr. Einremhofer: *MEADE*

On September 9, 2002, Region 28 sent you our plan amendment resulting from our Window #7 process, requesting comments or approval of the plan. In the past it was sufficient to either receive a response within 60 days or assume that the region was in agreement in the absence of a concurrence letter.

The FCC has changed their process – they rejected our submission in November 2002 and again in September 2003, stating that, “An unconditional concurrence letter from each adjacent region was required before the plan could be approved”. This will be our third attempt to satisfy the requirement of the FCC.

If you agree that the proposed new channel assignments documented in the attached Appendix #1 of the Region 28, Window #7 Plan Amendment will not cause harmful interference to systems in your Region, please sign this letter below indicating your “Unconditional Concurrence” with our plan amendment. This signed letter will be attached to our FCC request for approval of the Region 28, Window #7 Plan Amendment.

Make a copy of this signed letter for your records and return the original to my attention as quickly as possible. A pre-addressed, stamped envelope is provided for your convenience. Thank you for your continued support.

Sincerely,

Richard R. Reynolds
